

THE
OCEAN OF
CONSCIOUSNESS
SPA

“I used to think that the top environmental problems were biodiversity loss, ecosystem collapse and climate change. I thought that with 30 years of good science we could address those problems. But I was wrong.

The top environmental problems are selfishness, greed and apathy... and to deal with those we need a spiritual and cultural transformation – and we scientists don't know how to do that.”

**The Universe is an ocean of infinite possibilities.
Within it, we are all ripples – playing, dancing and interacting.
Waves of consciousness and vibrations connect us.
And every thought and action influences everything around us.**

We each have two choices:
to remain unconscious –
or awaken our power to affect wide-reaching change.

Five pathways guide the way –
Truth, Wise Action, Love, Peace and ***Compassion***:
five opportunities to elevate our awareness...
to transform our actions...
and to unite with the Infinite in the Ocean of Consciousness.

Truth

The Truth resonates deep within. It comes from an inner knowing, an inherent honesty, an alignment with self and surroundings. It helps us drop our burdens and free our hearts.

Am I honest with myself/others? Does what I say correspond to how things are? Do I have an open mind? Do I ignore my inner voice, manipulate situations and fear new possibilities?

Wise Action

Wise Action means having a finely tuned moral compass: an inner guide that propels us to live virtuously, honourably and unselfishly, and to be the best possible version of ourselves.

Am I grounded and responsible? Do I avoid harmful behaviours that cause suffering to others or myself? Do I act out of guilt, over-sensitivity or self-interest?

Peace

Peace arises when we practise detachment. When we cease to be controlled by our desires and expectations, we cultivate calm that positively impacts all around us.

Do I have a harmonious state of mind? Am I selfless in challenging situations? Am I easily able to let go and move on? Am I plagued by doubt and regret, fear or resentment?

Love

Love is union, oneness and connection with ourselves and the universe. When we live and breathe love, it flows unhindered all around us. Love is infinite and all-encompassing.

Am I open to others and myself? Do I find it easy to be passionate, creative, intuitive and imaginative? Am I obsessive and introspective, fear being hurt or struggle to connect?

Compassion

Compassion manifests when all the pathways align. It is empathy in thought, word and deed towards ourselves and all living things – beyond species, status, culture or gender.

Do I accept others as they are? Do I have a sincere concern for their welfare, even if they behave negatively? Do I fear them, mistrust their differences or disregard their happiness?

The Ocean of Consciousness Experience

180 mins

Everything and everybody in the universe is composed of multiple layers of consciousness: frequencies of vibration that form electromagnetic waves that shape our material and energetic reality.

A healing force since the beginning of time, the power of sound can be used to harmonise these frequencies – bringing the vibrations within us in tune with the larger vibrations around us with powerfully harmonic results.

Our signature treatment harnesses the boundless power of sound to connect each individual to the layers of awakened knowledge both in and around them. Through breath preparation, a salt and crystal scrub, bath soak, awakening massage and profoundly immersive sound bath, let us take you on a mind-blowing exploration deep into the ocean of consciousness.
