# BALI AT SAYAN

## Experience Bali's Inner Tranquility

Hidden in Bali's central highlands – minutes from the artistic and cultural capital of Ubud – Four Seasons Resort Bali at Sayan welcomes you to a lushly green valley beside the Ayung River.

Experience authentic Balinese culture as you relax in ultra-private accommodations – with just 60 villas and suites. Dine on traditional local cuisine. Pamper yourself with time-honored Balinese spa treatments. And explore this magical culture and landscape with activities custom-created for couples and families.

## Live in Harmony with Nature

With innovative design that has become legendary around the world, our 42 villas are immersed in greenery, presenting up-close views of the river and rice terraces. Choose from one- or two-bedroom layouts – all with a private sun terrace and plunge pool – and set your own pace for a sensual indoor-outdoor lifestyle.

Most spectacular of all is the two-story Royal Villa, encompassing 1,500 square meters (16,146 square feet) and including three bedrooms, a dining gazebo and full-size swimming pool.

## AT ONE WITH THE RIVER

Fall asleep to the lulling sounds of the Ayung River – whether in a River-View Villa nestled on the hillside or in a Riverfront Villa perched right on the riverbank.

## Chic, Modern, Distinctly Balinese

Ultra-comfortable, our air-conditioned villas feel chic and contemporary, yet connected to traditional Balinese culture and design. All the materials are sourced from the island, including traditional ikat fabrics and local handicrafts.

Larger than many bedrooms, the marble-clad bathroom invites you to luxuriate in the dramatic free-standing tub, set beside shuttered windows. Or refresh in your choice of indoor or outdoor shower.

## Suite Sophistication for Couples

Like exquisite Balinese apartments, our one-bedroom suites are conveniently positioned within the Resort's main building, close to the lobby, restaurants, spa and fitness center.

Designed on one or two levels, these 18 residential-style suites offer a spacious living room, separate bedroom and a sun terrace for outdoor dining or lounging with river-valley views. Chic Balinese décor showcases custom teak furniture, authentic artifacts and exotic hand-loomed fabrics.

## A Natural Paradise for Families

An ideal option for parents and up to two children, Family Suites give you a thoughtfully designed home base in Bali. There's plenty of room to spread out and relax in the living area, outdoor terrace, master bedroom and children's room – all on one level.

Set within the main Resort building, Family Suites offer easy access to the lobby and restaurants, as well as the Pici Pici Club, our fun play area for children ages 5 to 12, offering supervised games and activities – and giving parents a chance for some alone time.

## MUST-TRY RIJSTTAFEL DINNER

Be sure to join us for this multi-course feast, dating from Indonesia's Dutch colonial period. Meaning "rice table", Rijsttafel features as many as 40 dishes, served by lines of traditionally dressed servers.

## Taste Bali's Exotic Flavors

Discover the many delicious Four Seasons dining possibilities – showcasing authentic Balinese and Indonesian cuisine, along with international specialties from Western to Mediterranean.

Wake up to breakfast outdoors on your private terrace. Enjoy a casual lunch at the Riverside Café. Sip tropical cocktails at the Jati Bar, then dine at the elegantly curved Ayung Terrace, open to views of the valley. Or plan your own Epic Dining Experience, whether in a riverside gazebo or at the circular rooftop lotus pond – an unforgettable setting that seems to float in mid air.

## THE MAGNIFICENT ROYAL SPA VILLA

The size of a private residence, this elite spa villa offers two treatment tables, a circular bathtub, as well as a totally private outdoor plunge pool and sundeck within a screened lotus pond.

## Learn the Art of Living in Bliss

Immersed in lush jungle greenery, the Spa at Four Seasons provides a serene, nurturing environment with a deep inner focus. Enjoy the finest in skin care and massage, as you discover authentic Balinese spiritual traditions, such as chakra balancing, wellness practices, yoga and meditation.

Treatments are offered in the main spa, with its adjoining fitness center, or in our three spectacular spa villas – each a luxurious sanctuary secluded within its own private lotus pond.

## SWIM BY THE RIVER'S EDGE

Flowing with the river's natural contours, our two-level pool provides a relaxing oasis, enticing with comfortable lounge chairs and refreshments from the adjoining Riverside Café.

## Deepen Your Balinese Connection

Rely on Four Seasons to offer you first-hand experiences of the real Bali. Learn to plant rice seeds and transplant the shoots, as you discover the daily life of a Balinese farmer. Take a morning walk to the neighboring village of Sayan and meet the local residents.

Join our bartender for a class in mixing tropical cocktails, or prepare traditional Balinese recipes with a chef in our kitchen, who'll even give you a tour of our garden and the nearby food market. End your beautiful day at the Jati Bar, watching an authentic Balinese dance performance.

## Explore the Heart of Our Island Paradise

Experience the beauty of the sacred Ayung River in a canoe, kayak or raft. Feed and make friends with the world's largest herd of Sumatran elephants. Or plan a morning trek to the summit of the volcanic Mount Batur to witness a glorious sunrise.

Let us plan a day of discovery in the nearby town of Ubud – Bali's cultural heart – guiding you to the best galleries and boutiques for paintings, handicrafts and silver. With Four Seasons, you'll find beautiful souvenirs and create precious memories to cherish for a lifetime.
