

FOUR SEASONS WHISTLER

WINTER RESORT GUIDE | 2026-2027

A Message From Our *General Manager*

Welcome to Four Seasons Resort and Residences Whistler. On behalf of our entire team, it is a pleasure to have you with us this winter.

There is a particular feeling in Whistler when the mountains are blanketed in snow. The village takes on a special energy, and it's easy to see why so many guests return season after season, creating traditions and memories with family and friends.

With Whistler Blackcomb just moments from our door, adventure is always within easy reach. Some guests are out early to catch first chair, while others prefer a leisurely breakfast by the fire before deciding how to spend the day. Both are very much in the spirit of this place.

Winter in Whistler is about more than the mountain. It is the excitement of discovering fresh snowfall, the warmth of gathering for après, the quiet beauty of snow-covered forests, and the simple joy of spending time together. No two stays are ever quite the same, which is part of what makes this destination so special.

Many members of our team proudly call Whistler home, and they are always happy to share their favourite experiences and hidden gems. Whether you are visiting for the first time or returning to a cherished destination, we are here to help you make the most of every moment.

Thank you for choosing to spend part of your winter with us. I hope your stay brings wonderful memories and a reason to return, and should our paths cross at the resort, I would be delighted to say hello.

Warmest regards,

Pierre Morillon, General Manager

Ski In & Ski Out Concierge

Located at the base of Blackcomb Mountain, just a three-minute walk or complimentary shuttle ride from the Resort, our Ski Concierge offers ski storage, lessons, and other essentials for a seamless day on the slopes.

For lessons, guests should arrive at the Ski Concierge 45 minutes before their meeting time at the base or 75 minutes before if meeting at the top of the mountain. Peak times are 8:00 am - 10:00 am and 2:30 pm - 4:30 pm.

It all begins before you even click into your skis. Whether you have brought your own equipment or plan to rent, our Ski Concierge ensures your first day on the slopes is seamless, from the moment you arrive to your last run.

If You Have Your Own Equipment

You can take a short walk or the complimentary shuttle to the Ski Concierge, located at the base of Blackcomb Mountain. Leave your equipment worries behind — our team transports your skis, poles, boots, and snowboards so they are ready when you arrive. Once there, we will store your shoes, and prepare you for the day ahead.

When it is time to unwind, drop off your equipment at the Green Tent beside the Blackcomb Gondola or at the Ski Concierge itself. Your shoes will be waiting, and our team will dry and store your equipment overnight so it's fresh for your next morning on the mountain.

If You Need to Rent Equipment

Rentals can be arranged in advance through the Whistler Blackcomb Mountain Store, or you can visit the Mountain Product Store in the lower lobby to be fitted. We recommend being fitted the day before, as it may take up to two hours to prepare your gear. If you are skiing Blackcomb Mountain, your equipment will be ready at the Ski Concierge the next morning. Rental returns are simple — drop off your equipment back at the Ski Concierge at the end of your trip.

Skiing Whistler Mountain

For the smoothest experience, we recommend skiing Blackcomb Mountain, where our Ski Concierge is based. However, if you prefer to ski Whistler Mountain, please ask the ski concierge team to keep your equipment overnight with Guest Services. In the morning, collect your gear from the front drive and take the complimentary shuttle to the Sundial Hotel, a short walk from the Whistler Village Gondola.

Ski School

If your child's ski school is on Whistler Mountain, you can take the shuttle, drop them off, then hop on the shuttle from the Sundial Hotel back to the Ski Concierge. Your equipment will be ready, so you can head straight onto Blackcomb's slopes.

Checking Out Early

If you are departing in the morning, please let the Ski Concierge team know. We can deliver your equipment to your room for packing or hold it at Guest Services for easy access when you check out from the Resort.

Insider Tips For The Mountain

Whistler Blackcomb, the largest ski resort in North America, offers a winter playground of epic proportions with two distinctive mountains, over 200 runs, and 8,171 acres of terrain. Whether you are seeking big mountain thrills, chasing fresh powder, or enjoying a scenic cruise between pine trees, each day on these mountains brings new adventure. Not sure where to begin? Here are some insider tips to make the most of your time on the slopes.

Getting Started On The Mountain

Access Whistler Blackcomb from three main points: Whistler Village, Whistler Creekside, and the Upper Village (for Blackcomb only). From these bases, four gondolas and two high-speed chairlifts transport skiers and snowboarders up, while a network of lifts distributes you across the expansive terrain. Four Seasons Ski Concierge is conveniently situated at the base of Blackcomb Mountain—just a short walk or shuttle ride from the resort.

No matter how long you have been skiing, it is essential to warm up on easier terrain to get back in the groove. New to skiing? A lesson is the perfect start, providing you with foundational skills to feel confident on the slopes. Need help booking? Our Concierge team is ready to assist.

Peak 2 Peak Gondola

Whistler and Blackcomb, two distinct yet interconnected mountains, create an unparalleled ski area. The spectacular PEAK 2 PEAK Gondola links the upper slopes of Whistler with Blackcomb, letting you glide between mountains without having to descend back to the village—a seamless experience that means you can explore more terrain with ease.

Finding Your Run

With 75% of Whistler Blackcomb's terrain rated green or blue, beginners and intermediates can enjoy wide, scenic runs, perfect for taking in the mountain at your own pace. For gentle terrain, take the Village Gondola to the mid-station. Here, you'll find beginner-friendly magic carpets and the Olympic chair, providing plenty of space to find your feet without the bustle of advanced skiers. Ready to step it up? Take the gondola to the top and begin on the left side of Roundhouse Lodge. First-time visitors can get acquainted with the mountain layout through Whistler Blackcomb's CIBC Mountain Host Program, which offers complimentary daily tours for intermediate and advanced skiers.

Epic Descents and Powder Bowls

For those ready to test their stamina, do not miss the world's longest blue run, Peak to Creek. This seven-mile, top-to-bottom descent winds down to Creekside, offering spectacular views of the men's and women's Olympic downhill runs on your way back up.

When fresh powder falls, head to Whistler's Harmony and Symphony Bowls for incredible off-piste skiing. And if you are looking for a crowd favorite, Blackcomb's 7th Heaven offers breathtaking views and endless powder on a clear day.

Embracing the Whistler Spirit

Whistler Blackcomb holds a special place in the hearts of locals, and each visit to the mountain is a chance to experience Whistler's iconic ski culture. Whether you are exploring a new run, warming up with après-ski at Braidwood Tavern, or taking in the mountain views, Whistler is ready to welcome you for an unforgettable adventure.

Whistler For *Non-Skiers...*

Whistler may be famed for its powdery slopes and daring descents, but there is so much more to these mountains than meets the eye. For those who do not ski—or just prefer to enjoy the mountain in their own way—Whistler offers a world of wonder.

Sightseeing

Step into the Peak 2 Peak Gondola, where Whistler's landscapes unfold in an entirely new way. Suspended between Whistler and Blackcomb, this 3.03-kilometer journey is more than a record-breaker; it is a rare chance to experience alpine scenery from an unparalleled perspective, 436 meters above the valley floor. In just 11 minutes, you will be carried across rugged peaks and sprawling snowfields with views that turn Whistler into a place of true scale and beauty. And at each stop, you can experience on-mountain dining that ranges from freshly prepared lodge classics to inspired dishes that reflect the flavors of British Columbia. The Peak 2 Peak makes Whistler a destination for anyone drawn to the thrill of high-altitude views and distinct, thoughtful cuisine—no skis necessary. As you take in the sweeping, eagle-eye views from the Peak 2 Peak Gondola, treat yourself to the range of on-mountain dining options that Whistler has to offer. Whether you are in the mood for a casual, cozy meal or a more elevated culinary experience, there is something for every taste and budget.

From locally inspired dishes at Rendezvous to comforting classics in a fireside lodge, each stop offers a warm retreat and a taste of Whistler's alpine flavours amid the snowy landscapes.

Soar and Slide

Tubing at the bubly™ Tube Park is as exhilarating as it is accessible. Slide down 1,000 feet on a specially crafted tube, and let a conveyor lift whisk you back up to do it all over again. Choose from a one- or two-hour pass, with options for all ages, including a dedicated mini-lane for kids under seven. For those looking to experience Whistler from above, soar through the dense forest between Whistler and Blackcomb and enjoy a network of ziplines, suspension bridges, and viewpoints. At the heart of the adventure is Canada's longest zipline, the Sasquatch, stretching over two kilometers and reaching speeds of 100 km/h, making it a must for adrenaline lovers.

For a truly unique Olympic throwback, head to the Whistler Sliding Centre, where you can experience the "Public Skeleton" ride—two heart-pounding trips down the Maple Leaf track, complete with an orientation session and provided helmets and gloves (spandex bodysuit not provided). It is an intense way to catch a piece of the Olympic spirit.

Audain Art Museum / Oisin McHugh
